INTRODUCTION

This document contains the release notes for the LexisNexis InstantID Question and Answer (IIDQA) Nodes marketplace package available upon the ForgeRock Identity Cloud and the ForgeRock Access Management (AM) Single Sign-On (SSO) server.

QUALIFICATION STATEMENT

ForgeRock Identity Cloud

LexisNexis IIDQA Nodes were tested on the ForgeRock Identity Cloud in November 2023 with the latest release of software. The nodes are part of the ForgeRock release process and validated on a regular basis.

ForgeRock Access Manager (On Premise)

This section documents testing performed with LexisNexis IIDQA Nodes.

Java Environment

- OpenJDK 11

Web Application Container Environment

- Apache Tomcat 9

Versions Tested

- ForgeRock Access Manager 7.3.0
- ForgeRock Access Manager 7.4.0

Note: The LexisNexis IIDQA Nodes are only compatible with ForgeRock Access Manager version 7.3.0 and beyond. ForgeRock versions prior to version 7.3.0 are not supported due to changes in the ForgeRock core API.

KNOWN ISSUES

The following is a complete list of currently known issues:

- There are no known issues at this time

CHANGE LIST

LexisNexis InstantID Question and Answer (IIDQA) Nodes 1.0.0 – November 2023

- Initial Release
